

**Zájmová skupina Evropského parlamentu pro prevenci karcinomu děložního čípku vítá, že za rakouského předsednictví v červnu 2006 uznala Rada ve svých závěrech karcinom děložního čípku za závažnou hrozbu pro zdraví žen.**

Zájmová skupina Evropského parlamentu pro prevenci karcinomu děložního čípku spolu s Evropskou asociací pro prevenci karcinomu děložního čípku a mnoha dalšími organizacemi po celé Evropě nyní vyzývá Evropský parlament, Evropskou komisi a vlády evropských zemí:

1. Aby neúnavně pracovaly na zavedení účinných populačně založených organizovaných screeningových programů pro prevenci karcinomu děložního čípku v souladu se směrnicemi EU pro zajištění kvality při screeningu pro prevenci karcinomu děložního čípku spolu s profesionálně organizovanými zdravotnickými osvětovými programy a zajistily tak, že všechny ženy budou moci plně využít služeb, které jsou pro ně k dispozici.
2. Aby podporovaly výměnu informací o nejlepších postupech mezi členskými zeměmi a umožnily tak uplatnění špičkových odborných znalostí, kterými disponují některé členské země, na území celé Evropské unie.
3. Aby podporovaly nezávislý populačně založený výzkum zaměřený na co nejlepší uplatnění nových metod, které máme k dispozici, v rámci zdravotnických programů a tak napomohly maximálnímu snížení výskytu karcinomu děložního čípku na území celé Evropské unie.
4. Aby uznaly a podporovaly významný podíl charitativních a nevládních organizací a dobrovolníků na průběžném snižování výskytu karcinomu děložního čípku v Evropě.
